2.7.1 Procedures

(A) The Telephone Company reserves the right to make periodic inspections of any part of attachee's communications facilities attached to a pole.

(D)

(B) The making of periodic inspections or the failure to do so shall not relieve the attachee of any responsibility, obligation or liability imposed by this tariff.

2.7.2 Unauthorized Attachment

(A) If any of the attachee's communications facilities shall be found attached to a pole for which there is no authorization outstanding, the Telephone Company, without prejudice to its other rights or remedies under this tariff, including termination of authorization(s), may impose a charge not greater than twice the amount equal to the rate that would have been due had the installation been made the day after the last previous required inspection, may also impose make-ready charges for unauthorized installations not to exceed twice the charges which would have been imposed if the installation had been properly authorized, and require attachee to submit in writing, within (15) days after receipt of written notification from the Telephone Company of the unauthorized attachment, a pole application. If such application is not received by the Telephone Company within the specified time period, attachee may be required to remove its unauthorized attachment within (15) days of the final date for submitting the required application, or the Telephone Company may at its option remove attachee's facilities without liability, and the expense of such removal shall be borne by the attachee.
